Turnock Ltd

[Return to search results](#)

[Print this page](#)

An excellent opportunity to work in a well established and supportive engineering environment, assisting in the processes involved in the production and design of specialist lighting and electrical products.

[Sign in to apply](#)

Closing date: 19 Mar 2021

### Traineeship details

The placement will enable you to gain experience in the following areas, as the work allows:

- Assembling, wiring & testing Christmas lighting displays
- Testing, fault-finding, & repairing displays, as well as other items we manufacture
- Creating & Recording product design information
- Assisting in some display shipping & installation work around Christmas time
- Assisting in other areas of the factory as necessary including but not limited to the Welding Bay & Tool Room, and the injection moulding shop.
- Possible Photoshop work for new display designs

This Traineeship work experience is part of an education and training programme that is focused on giving young people the skills and experience that employers are looking for. At its core is the Work Preparation training, English and maths for those who need it, and a high quality work experience placement.

Traineeships help unlock your great potential and give you the work preparation training, maths, English, Digital Skills and work experience needed to get an Apprenticeship or other job.

This Traineeship Opportunity is unwaged.

Are you eligible?

- Are you currently not in a job? Do you have little or no work experience?
- Are you aged 16 to 24 and qualified below Level 4?
