## WHAT'S IN IT FOR ME?

You may have left school with no qualifications at all, or you may have learnt all your skills on the job. One thing is certain though, whatever your current skills, you will need more in the future. Acquiring new skills and qualifications is a great way to advance your career, but there are also financial benefits. For most people, a future with better prospects and a bigger income is in their hands. For example, people with a **Level 2** qualification earn on average over **£100,000** more over the course of their career, and those achieving a **Level 3** qualification can earn an extra **£180,000**; all without the costs associated with getting a Degree.

## IT WORKS BECAUSE!

Last year we helped over **2600** West Midlands residents gain new skills to help them into a secure job with real prospects. **82%** of our learners gained a promotion or a pay rise as a result of our training. We work with over **1840** employers to help them recruit and train their staff. **93%** of our learners would recommend us to a friend or colleague.
