

SAFE AT SUMMERHILL

At Summerhill School we are committed to Safeguarding our children and young people as well as promoting positive well-being for all.

This Safeguarding newsletter, aims to help staff, parents and students alike to be aware of Safeguarding and mental well-being issues, giving you useful links and resources to use if you have concerns. Please do not hesitate to contact us on the main school number (01384 816165) or via email on studentsupport@summerhill.dudley.sch.uk

TikTok

Did you know? Tik Tok has quickly become one of the world's most downloaded apps

There are now around a billion TikTok users worldwide. TikTok advises a minimum age of 13 to access the platform, but reports suggest that some children as young as 10 are using it.

Like all social media platforms, TikTok is constantly evolving and has recently brought out features linked to in-app spending as well as accessing third-party content through TikTok Jump.

What Parents & Carers Need to Know about

TIKTOK

AGE RESTRICTION
13+

TikTok is a video-sharing social media app which lets people create, view and download looping 15-second clips. Typically, these are videos of users lip-syncing and dancing to popular songs or soundbites (often for comic purposes), enhanced with filters, effects and text. Designed with young people in mind, TikTok skyrocketed in popularity in 2019 and has featured near the top of download charts ever since. It now has around a billion users worldwide.

AGE-INAPPROPRIATE CONTENT

Most videos appearing on a child's feed are light-hearted and amusing. However, some clips have been reported for featuring drug and alcohol abuse, themes of suicide and self-harm, or young teens acting in a sexually suggestive way. The sheer volume of uploads is impossible to moderate entirely – and since TikTok Jump's introduction in mid-2021, users can view third-party content outside the app.

18

CENSORED

EXPLICIT SONGS

TikTok primarily revolves around videos of users lip-syncing and dancing to music. Inevitably, some featured songs will contain explicit or suggestive lyrics. Given the app's young user-base, there is a risk that children may view older users' videos and then be inclined to imitate any explicit language or suggestive actions.

W&#*!

TIKTOK FAME

The app has created its own celebrities: Charli D'Amelio and Lil Nas X, for example, were catapulted to fame by exposure on TikTok – leading to many more teens attempting to go viral and become 'TikTok famous'. While most aspiring stars hoping to be 'the next big thing' will find it difficult, setbacks may in turn prompt them to go to even more drastic lengths to get noticed.

HAZARDOUS VISIBILITY

Connecting with others is simple on TikTok – including commenting on and reacting to users' videos, following their profile and downloading their content. The majority of these interactions are harmless, but because of its abundance of teen users – TikTok has experienced problems with predators contacting young people.

ADDICTIVE NATURE

Like all social media, TikTok is designed to be addictive. It can be hugely entertaining – but that also makes it hard to put down. As well as the punchy nature of the short video format, the app's ability to keep users intrigued about what's coming next means it's easy for a 5-minute visit to turn into a 45-minute stay.

IN-APP SPENDING

There's an in-app option to purchase 'TikTok coins', which are then converted into digital rewards for sending to content creators that a user likes. Prices range from 99p to an eye-watering £99 bundle. TikTok is also connected with Shopify, which allows users to buy products through the app.

Advice for Parents & Carers

TALK ABOUT ONLINE CONTENT

Assuming your child is above TikTok's age limit, talk to them about what they've viewed on the app. Ask their opinion on what's appropriate and what isn't. Explain why they shouldn't give out personal details or upload videos which reveal information like their school or home address. In the long run, teaching them to think critically about what they see on TikTok could help them to become social-media savvy.

MAINTAIN PRIVACY SETTINGS

The default setting for all under 18s' accounts to 'private'. Keeping it that way is the safest solution: it means only users who your child approves can watch their videos. The 'Stitch' (which lets users splice clips from other people's videos into their own) and 'Duet' (where you build on another user's content by recording your own video alongside their original) features are now only available to over 18s. This might clash with your child's ambitions of social media stardom, but it will fortify their account against predators.

LEARN ABOUT REPORTING AND BLOCKING

With the correct privacy settings applied, TikTok is a relatively safe space. However, in case something does slip through, make sure your child knows how to recognise and report inappropriate content and get them to come to you about anything upsetting that they've seen. TikTok allows users to report anyone breaching its guidelines, while you can also block individual users through their profile.

ENABLE FAMILY PAIRING

'Family Pairing' lets parents and carers link their own TikTok account to their child's. Through your mobile, you can control your child's safety settings remotely – including limiting screen time, managing their ability to exchange messages (and with whom) and blocking a lot of age-inappropriate content. TikTok's Safety Centre also provides resources for parents and carers to support online safety among families. These resources can be found on their website.

USE RESTRICTED MODE

In the app's 'Digital Wellbeing' section, you can filter out inappropriate content (specific content creators or hashtags, for instance) using 'Restricted Mode'. This can then be locked with a PIN. You should note, though, that the algorithm moderating content isn't totally dependable – so it's wise to stay aware of what your child is watching.

MODERATE SCREEN TIME

As entertaining as TikTok is, you can help your child to manage their time on it in the 'Digital Wellbeing' section. Under 'Screen Time Management', you can limit the daily permitted time on the app (in increments ranging from 40 minutes to two hours). This preference can also be locked behind a PIN. That way, your child can get their regular dose of TikTok without wasting the whole day.

Meet Our Expert

Parven Kaur is a social media expert and digital media consultant who is passionate about improving digital literacy for parents and children. She has extensive experience in the social media arena and is the founder of Kids N Clicks: a web resource that helps parents and children thrive in a digital world.

If You Don't Know, Don't Go

We are heading towards the party season and young people will be heading out to celebrations in the homes of friends". Although many of these parties will be fantastic, other events may lead to other problems including drug use or risky behaviours.

West Yorkshire Police have collated information for young people about the potential dangers of house parties and how to keep themselves safer.

National Sleep Helpline

Did you know? The National Sleep Helpline helps anyone with sleep issues.

Poor sleep can affect anyone and it can be a major stress for parents whose own sleep can be impaired by their children's difficulties getting to sleep or staying asleep, leading to greater stress.

Having a sleep issue is surprisingly common. At any given time this affects up to 40% of adults and 50% of children (this rises to 80% with a SEND diagnosis).

The National Sleep Helpline can support parents and young people struggling with this.
